

2021 D-Town Farm Volunteer and Visitor Guidelines

We appreciate your interest in volunteering and visiting with us at D-Town Farm! Please read all of our guidelines prior to arrival for our shared safety and understanding.

- Masks are recommended but not required and social distancing should be respected to the extent possible.
- Please review and complete our [Shared Safety Guidelines](#) prior to each visit. If you or someone close to you has experienced any listed symptoms, please reschedule and visit us after you are clear of any potential COVID exposure.
- If you are interested in volunteering as a group, please complete our [Volunteer Request Form](#) and send it to info@dbcfsn.org.
- If you are interested in scheduling a tour, please complete our [D-Town Farm Tour Request Form](#) and return it to info@dbcfsn.org.
- Our weekend volunteer hours are **Saturdays and Sundays from 8am-12pm**. We have limited first come, first serve spaces available. If we have reached our daily maximum, you may be asked to return another day.
- For the 2021 growing season, our volunteer days are from **March 27- November 21**.

We highly encourage volunteers and visitors to consider the following:

- *Footwear:* If you have them available, we recommend wearing boots or other shoes that are water resistant for your own comfort and safety.
- *Gloves:* We recommend bringing work gloves if you have them.
- *Layering:* We recommend layering several lighter layers and bringing a heavier coat if it is cool out. Consider a light long sleeve in the summer to protect your skin in the case of bugs or work that is dusty or muddy. Long pants are also recommended.
- *Food and Water:* you are encouraged to bring a water bottle and are welcome to bring a snack to support your time on the farm.
- Street parking is available on northbound Outer Drive near our main gate.

Thank you again for your interest in visiting D-Town Farm! If you have any questions at all, please do not hesitate to contact us at info@dbcfsn.org.
